ORDER

(Date of Order: 05.05.2025)

1. The instant Petition has been filed by Tata Power Delhi Distribution Ltd. (TPDDL) seeking approval of the Commission to allow the Petitioner to levy differential Power Purchase Cost Adjustment Charges (PPAC) pertaining to the period commencing from October' 2024 and ending December' 2024 of FY 2024-25 in accordance with Section 62(4) of the Electricity Act, 2003 read with Regulation 134 of the Delhi Electricity Regulatory Commission (Terms and Conditions for determination of Tariff) Regulations, 2017 (Tariff Regulations 2017), along with Regulation 30 of Delhi Electricity Regulatory Commission (Business Plan) Regulations, 2023 ('Business Plan Regulations 2023').
2. The Petitioner has made the following prayers: -
 - a) To allow Petitioner to levy Power Purchase Adjustment Cost as per present Petition to the tune of 14.17% for a period of three months i.e., from 01.05.2025 till 31.07.2025; and/or
 - b) To exclude any credit from STOA from PPAC calculations.

PETITIONER'S SUBMISSIONS

3. The Petitioner has submitted the following:
- i. The Petitioner is a Distribution Licensee in terms of Section 14 of the Electricity Act, 2003 read with the Delhi Electricity Reforms Act, 2000 (DERA 2000) and is operating in North, Northwest areas of Delhi in terms of the distribution license issued by the Commission.
 - ii. The Petitioner has been procuring electricity from various generating sources including renewable sources through utilization of the State and Central Transmission Network of the Transmission Licensees. The power is then supplied to the consumers at the applicable retail tariff determined/adopted by the Commission. The cost of long-term power being procured from Central generating stations and State generating stations is determined, after following the due process as prescribed under law, by the Ld. Central Electricity Regulatory Commission (CERC) and the Commission, respectively. The cost of such power procurement along with transmission of electricity comprises around 80% of the Annual Revenue Requirement (ARR) of the Petitioner.
 - iii. It has been submitted by the Petitioner that the Power Purchase Cost is an uncontrollable factor and beyond the control of the Petitioner and is dependent on various factors such as fuel prices, imported coal blending, freight charges for fuel transportation, regulatory orders/directives (incentives, O&M costs, etc.), variation between demand and supply due to various macroeconomic factors and weather conditions, and such difficulties have been duly acknowledged by the Commission during past few years in respect of Tariff determination exercise. The factors such as fuel prices, imported coal blending, freight charges for fuel transportation etc. have been statutorily recognized as uncontrollable factors. Hence, due to the nature of such factors being unforeseeable, it becomes difficult to accurately estimate the power purchase costs at the time of annual tariff fixation.
 - iv. The Petitioner has submitted that the very purpose of providing PPAC is to timely compensate the Petitioner/Distribution Licensee for the increase in power purchase costs for the particular periods in the year to keep its financial liquidity intact. In practice, a generator has to make payment for the fuel. Any increase in the fuel price will have to be compensated, else the generator will not be in a position to procure enough fuel to generate power. Consequently, the Distribution Licensee who procures power from the generators, in turn, has to immediately bear and pay the increased costs to the generator. If the Distribution Licensee is not compensated at the time, its liquidity gets severely impacted. Any deferral in compensation to the Distribution Licensee on account of additional power purchase

expenditure also results in interest cost (carrying cost), for which, the Distribution Licensee will have to ultimately resort to funding through short-term loans. Such a measure is not in the interest of the consumers as there is an additional burden in terms of higher tariff and carrying cost on the consumers.

- v. The Commission acknowledging such issues being faced by the Distribution Licensees introduced the concept of PPAC. The mechanism for levying the same has been specified in Regulation 30 of Business Plan Regulations, 2023.
- vi. The Commission has already clearly defined the framework for PPAC including the mechanism, frequency, formulation, process of approval, recovery as well as adjustment, if any, required in terms of the Tariff Regulations, 2017.
- vii. Based on the audited Power Purchase Cost and records of the Petitioner for the period commencing from October '2024 and ending December '2024 of FY 2024-25, the Petitioner has calculated the proposed PPAC percentage in line with the PPAC methodology specified by the Commission. Accordingly, the PPAC based on all the bills relating to the said period has been calculated as 14.42%.
- viii. It has been submitted by the Petitioner that the Commission had considered PPAC @ 8.50% in the Tariff Order dated 30.09.2021, equivalent to Rs. 626.57 Crore for meeting the Revenue Gap arising in the ARR for FY 21-22 for the Petitioner. The relevant Table is reproduced herein below for reference:

Table 4. 72: Commission Approved: Revenue (Gap) for FY 2021-22 (Rs. Cr.)

Sr. No.	Particulars	Amount
1	Aggregate Revenue Requirement (ARR)	6939.44
2	Add: Carrying Costs for FY 2021-22	92.25
3	Add: PPAC Cost Subsumed	13.69
4	Revised ARR (1+2+3)	7045.38
5	Revenue at Revised Tariff	6443.76
6	Add: Revenue from PPAC	626.57
7	Total Revenue (5+6)	7070.33
8	Revenue (Gap)/Surplus (7-4)	24.95

- ix. It has been further submitted by the Petitioner that the Commission has consistently allowed the above *ad hoc* PPAC of 8.50% to the Petitioner in the various Orders concerning PPAC for various quarters. The Commission also allowed the above *ad hoc* PPAC of 8.50% in its Order dated 03.01.2025 in Petition No. 63 of 2024 pertaining to Quarter 2 of FY 2024-25.

- x. In line with the PPAC mechanism framed by the Commission, the Petitioner has continued levy of suo-moto PPAC of 8.75% for the next billing cycle, i.e. for next three months with effect from 23.01.2025. The fact of such levy of 8.75% PPAC on the consumers pertaining to said period of FY 2024-25, has been duly informed to the Commission by way of Communication No. TPDDL/FIN/88 dated 22.01.2025. The Petition is being filed for approval of the balance PPAC i.e 14.17% (i.e. 22.92% - 8.75%). The said details were also uploaded on the website of the Petitioner on 23.01.2025 as required by the Commission Regulations/Orders.
- xi. The PPAC as claimed above by the Petitioner in the present Petition has been summarized in the table below:

S.No.	Document	PPAC
1.	PPAC based on all bills (As per Auditor's Certificate)	14.42%
2.	PPAC claimed & in force as per levy approved in Tariff Order dated 30.09.2021 for FY 2021-22	8.5%
3.	Provisional PPAC as per Regulation 30 of the Business Plan Regulations, 2023. <i>The same was duly communicated by Petitioner to the Commission vide letter dated 22.01.2025</i>	-8.75%
	Actual PPAC for Q3 of FY 2024-25	14.17%

- xii. The Petitioner hereby vide the present Petition beseeches the Commission to allow levy of 14.17% PPAC for a period of three months i.e. from 01.05.2025 till 30.07.2025 or such further period as deemed fit by the Commission.

Commission Analysis

4. The Petitioner has submitted PPAC computation for the period from October'2024 to December' 2024 (Q3) for FY 2024-25, and prayed before the Commission to allow the differential PPAC as follows:

Period	PPAC submitted by the Petitioner	PPAC claimed by the Petitioner
October' 2024 to December' 2024 (Q3) for FY 2024-25	14.42%	14.17% (=14.42% +8.50%* -8.75**)

Note: * PPAC allowed by the Commission vide Tariff Order dated 30.09.2021 for meeting the Revenue Gap
** Suo-moto levy of PPAC as per clause 30(4) of DERC (Business Plan) Regulations, 2023

5. Officers of the Commission vide email dated 28.04.2025 sought information like CERC Orders resulting in arrears, Coal based Power Plants Blending Ratio details, STOA bills, etc. In response thereto, the Petitioner vide its email dated 29.04.2025 submitted the required information. Meetings were conducted with the officials of the Petitioner on 02.05.2025 and 03.05.2025 wherein the Power Purchase and Transmission Bills as provided by the Petitioner were scrutinized. On scrutiny of the

same, it was observed that the calculation of PPAC submitted by the Petitioner is based upon various other charges in addition to the Fixed Charges, Energy Charges and Transmission Charges. However, the Commission has restricted the PPAC to the extent of Fixed Charges, Energy Charges and Transmission Charges only in line with Regulations 134 of the Tariff Regulations, 2017 read with Regulation 30 of Business Plan Regulations, 2023. Hence, as per the formula approved in Tariff Order dated 30.09.2021, the PPAC is computed as follows:

Period	PPAC submitted by the Petitioner	PPAC calculated by the Commission
October' 2024 to December' 2024 (Q3) for FY 2024-25	14.42%	10.72%

6. In view of above, the Commission accords approval of PPAC for Q3, FY 2024-25 as follows:

Period	PPAC claimed by the Petitioner	PPAC approved by the Commission
October' 2024 to December' 2024 (Q3) for FY 2024-25	14.17% (=14.42% +8.50%* -8.75**)	10.47% # (=10.72% +8.50%* -8.75**)

Note: * PPAC allowed by the Commission vide Tariff Order dated 30/09/2021 for meeting the Revenue Gap

** Suo-motu levy of PPAC as per clause 30(4) of DERC (Business Plan) Regulations, 2023

PPAC is restricted to the extent computed by the Commission. Other Charges, as claimed, falling beyond the scope of PPAC as per Regulations, shall be considered in the final true up subject to prudence check.

7. Presently, the ongoing PPAC is 12.89%, which was applicable till 30.04.2025. PPAC to be recovered for Q3 of FY 2024-25 works out to be 10.47%.
8. In view of the above, the Petitioner is hereby allowed to recover PPAC of 10.47% for 3 months beyond 30.04.2025 i.e., from 01.05.2025 to 31.07.2025. Surplus/deficit, if any, will be allowed with carrying cost, subject to prudence check of Power Purchase and Transmission Bills, in True-up of relevant Financial Year.
9. Ordered accordingly.
