#### Dry Ration cum Health & Hygiene Kits distribution in community

Besides providing reliable power in its area of operations, Tata Power-DDL also focuses on empowering and supporting the community beneficiaries in terms of education, health and safety. The pandemic has greatly affected the country economically, and as a measure of response, Tata Power-DDL has developed different strategies to cater to this acute health and humanitarian crisis and has conducted various ration distribution drives for the residents of JJ clusters. A total of 1300 ration cum Health & Hygiene kits including daily use items such as rice, dal, flour, oil, soap, toothpaste etc., were distributed. The distribution was carried out with the help of different NGOs namely PRAYAS, ARADHYA, SOFIA, SAVE, VSSD and DAV Education & Welfare Society. We believe that in these difficult times, it becomes more important to stand in solidarity and extend our help to the needy ones.

#### **Plantation Drive: Building a Greener Planet**

Trees play an important role in reducing air pollution and maintaining good air quality levels. Trees are also useful in the prevention of soil erosion which may lead to high flood situation. Therefore, every individual shall try to plant as many trees as possible because day by day pollution level in the environment is getting worse. To overcome this situation tree plantation is the only solution we have.

Walking on the same lines Tata Power-DDL's newly formed **Village Consumer Group** organised a plantation drive at Gurukul Tatesar on 29<sup>th</sup> July, 2021. In total, 200 saplings have been planted. Through this green initiative, we planted trees to replenish mother Earth. Such tree plantation drives and green initiatives will help in striking the right balance in the ecosystem by conserving nature, natural resources and increasing green cover.
