Solar Subsidy Scheme For Residential Customers

This is in continuation to your interest regarding installation of Rooftop Solar Plant under MNRE Subsidy scheme.

MNRE (Ministry of New & Renewable energy) has launched a solar scheme dedicated to residential segment in which "Make In India" solar plants are installed by empanelled vendors. These vendors shall be installing the solar plants across Delhi Covering all 3 DISCOMS. TPDDL shall be monitoring the whole process as a nodal agency to release the subsidy to the vendors and will assist in getting the net meter installed. Customer has to pay net amount deducting the subsidy component attached to the solar plant capacity as below:

1 kWp to 3 kWp	40% subsidy
3.1 kWp to 10 kWp	20% subsidy

* Solar plant Capacity is subject to availability of feasible roof space identified by the selected Vendor

<p>Subsidy Slab</p> <p>1 to 3 kWp :- 40% 3.1 to 10 kWp :- 20%</p> <p><i>*Customer needs to pay net of subsidy amount to vendor</i></p>
--

* No Subsidy above 10 kWp load per residential customer.

For Example - if the customer is getting 5 kWp solar plant then 40% subsidy is applicable for 3 kW and for remaining 2 kW, 20% subsidy shall be applicable.

Detail of vendors specially empanelled by DISCOMs is provided along with the mail. These vendors are authorized to install solar plant in Delhi Region. These vendors shall work under the guidance and supervision of Tata power-DDL.
